AUTOBELLS
AUTOMATIC BELL RINGING TIMER

We provide the automatic system from basic bell ringing to high end music playing in the campus.

The unit is used in Kinder garden, Middle school, High School, Factories, Industries, Theatres and public timing siren.

WHY AUTOMATION!

Usually, conventional methods require a peon or bell operator to attend and operate the bell system for every period and interval in schools and institutions. Such systems need sufficient human efforts to do so, and require advancement in order to become automated the ones that minimize human efforts. As the bell system is important in schools and industries, the automatic operation of this instrument helps to maintain the order and punctuality in economical and efficiently.
